Projects

Blog App – MERN Stack Blogging Platform MongoDB, Express.js, React.js, Node.js

- Developed a full-stack blogging platform with CRUD features for posts and user content management.
- Built reusable UI components in React.js to ensure smooth navigation and responsive design.
- Created RESTful APIs using Node.js and Express.js for handling data operations and routing.
- Designed MongoDB schemas to store posts, timestamps, and metadata efficiently.

WeatherNow – Real-Time Weather Forecast App React.js, REST API, Tailwind CSS

- Built a real-time weather application by integrating a REST API to fetch and display live weather data.
- Implemented error handling, input validation, and optimized API calls for better user experience.
- Designed a responsive UI compatible across multiple devices and screen sizes.

Internship Experience

Front End Developer Intern

Unified Mentor

Duration: 3 Months

- Developed responsive UI components using HTML and CSS to improve overall user experience.

- Worked on layout improvements and bug fixing for better cross-device compatibility.

Full Stack Web Development Intern

GRAS Tech Pvt Ltd

Duration: 1 Month

- Assisted in developing full-stack modules and integrating REST APIs into web applications.
- Supported debugging and testing tasks to ensure smooth functionality across features.

Achievements

- Vice Chairman, IEEE Student Branch – Babu Banarasi Das University, Lucknow.
- Participated in Techexplorer Competition, Babu Banarasi Das University (Sep 2024).
- Completed Soft Skill Training organized by Learnovate Enterprises at BBDU (Nov 2024).

Soft Skills

Communication, Problem Solving, Teamwork, Critical Thinking, Leadership, Conflict Resolution
